Expertise

Responsive Web Design

Photoshop

Figma

Bootstrap

Markets2Home

2022 - 2023

Web Designer

- As a founding web design team member, I spearheaded client collaboration to co-create websites that exceeded expectations.
- I leveraged my HTML, CSS, Bootstrap, and jQuery expertise to bring these visions to life, revamping existing pages with a laser focus on enhancing UX and navigation.
- My analytical and problem-solving skills ensured client preferences were seamlessly integrated into every design decision.
- I single-handedly executed the creation of multiple web pages using Bootstrap 3/4, flawlessly translating wireframes into visually stunning realities that maintained brand consistency across the site.
- Collaborating with the QA team, I proactively identified and resolved bugs, guaranteeing an optimal user experience tailored to each client's unique needs.
- My independent contributions to 60% of the website's design or modification, coupled with a relentless drive for self-improvement, led to my recognition as "Employee of the Month."

HNR Tech Private Limited

2015 - 2021

Web Designer

- I worked closely with clients to design and develop their ideal websites. I led the creation of 40-50 sites, using HTML/CSS and managing over 7 WordPress projects from start to finish, always keeping their brand in mind.

Education

2012- **Mumbai University**

2015 Bachelor of Science in Mathematics
